MEMORANDUM FOR: Director of Training

THROUGH : Chief, Operations School

SUBJECT : Course Report, CS Records II #7-70

Student Body

1. Eighteen students attended the course, ten of whom were CSCTs. The grades ranged from GS-04 through GS-11 (average, GS-08), and length of service from six months through twelve years (average, 2.6 years). There were six cancellations before the course began.

Course Conduct and Content

2. Except for some alterations in the sequence of speakers on the first day, to compensate for conflicts which could not be resolved otherwise, there were no changes in either content or conduct.

Speakers

3. [REDACTED] Central Reference Service/USSR, appeared for the second time to discuss biographic support to the CS. The student response was very good, particularly from the CTs. A number of questions were asked about CRS machine programs, possibly as a carry over from [REDACTED] talk on CS machine programs during the preceding CS Records I.

4. [REDACTED] OS/OSD, spoke in place of [REDACTED] who had been called out of town. [REDACTED] is one of our former regulars, and acquitted himself well. This will be his last appearance for some time, however, since he is leaving PCS in the near future.

Student Critiques

5. The critiques were rather mixed, as might be expected in a group with such disparity in experience. The principal criticism appears to have been directed against certain of the speakers. We will try to use these as levers, either to get better speakers or improved performance on the part of those whom we cannot dislodge. No other substantive changes are planned as a result of these critiques, but their tenor will be kept in mind when the other half of this CT group appears.

Chief Instructor's Comment

25X1A 6. This was the first Records II in which we had a substantial group from SB [REDACTED] Their comments during the course were most valuable in giving details of SB procedures and capabilities, which will be made a part of our presentation hereafter.
